18 OCT 1963

MEMORANDUM FOR THE RECORD

SUBJECT: Visit to Lear Siegler Service, Inc.,
15 October 1963

25X1

1. The undersigned, accompanied by [redacted] 25X1
LAC, visited the Lear Siegler Service, Inc. at Harrisburg,
Pennsylvania, to discuss auto pilot problems being encountered
at [redacted] 25X1

2. This problem was discussed with [redacted],
Vice President and General Manager, and [redacted],
Auto Pilot Service Engineer. After a lengthy discussion, the
following decisions were reached: 25X1

a. [redacted] would make an immediate
visit to [redacted] to help solve current problems. 25X1

b. [redacted], ex Detachment B auto pilot 25X1
field service engineer, who is no longer in the employ
of LSI, would be recruited to fill the [redacted] 25X1
position. [redacted] has been contacted and has agreed 25X1
to accept this position. 25X1

c. [redacted], present [redacted] LSI 25X1
field service representative, will be replaced by [redacted] 25X1
[redacted] at the completion of [redacted] tour,
which will terminate approximately 1 January 1964, 25X1
depending on leave accrual.

3. Subsequent to the auto pilot subject, [redacted] who 25X1
has extensive background in our project, mentioned LSI has
recently developed a new, extremely accurate high altitude
altimeter. I have asked LSI to submit details on this item
to Project Headquarters for evaluation. An altimeter
accurate at mission altitude would help immeasurably in
maintaining the flight as mission planned. 25X1
